

**Name:** 50S ribosomal protein L30

**Function:**

Limited information, see in Source:

**Source:**

We searched on NCBI with the accession number obtained and confirmed on Uniprot our Blast results:

GO - Molecular function:

structural constituent of ribosome Source: InterPro

GO - Biological process:

translation Source: UniProtKB-HAMAP

This protein has a subcellular location in the 50S ribosomal subunit  
Score of 2 out 5 “-Protein inferred from homology”
